## DAS-GSE FY 2006 Rates Fleet Management--Budget Assumptions

Total Expenditures \$ 618,331.41

divided by 12 months

equals monthly allotment \$ 51,527.62

Vehicles by Agency for "Month of Example"

2587

Charge per vehicle for "Month of Example"

\$ 19.92

The number of active vehicle and monthly charge per vehicle will change each month.

The fee will be based on only active vehicles each month.

The Fleet Management fee, or overhead rate, is calculated by dividing the authorized expenditure allowance by the twelve months in the fiscal year. The monthly amount is allocated to the active vehicles at the time of the billing, which is approximately the 20th of each month. There is a program that is run on the mainframe to do the allocation. Any variance resulting from the allocation is carried over to the following month as an adjustment to the monthly amount, with the exception of the month of June. We do not carry the variance across fiscal years.

The number of vehicles that are active each month is derived from the Fleet Mangement System administered by the Fleet, Mail and Printing Division.

## FOR EXAMPLE ONLY:
